DOCUMENT PURPOSE

The Advancing Conservation through Empathy (ACE) for Wildlife Network’s vision is “a conservation-minded society motivated by empathy towards all life.”

Through achieving our mission of “creating and sharing effective practices to foster empathy for animals and people,” Network Partners can: foster empathy, promote conservation missions, and motivate visitors to take conservation action. In this list, you will find a variety of books that touch on empathy for wildlife and nature. While some books may touch on the topic of empathy for wildlife, nature, and/or people specifically, many of these are on the list because they can stimulate productive thoughts around empathy.
