

## Enrichment

Enrichment means offering your animal an opportunity to **play**, **learn**, use **natural behaviors**, and **make choices**. This can include giving them toys, training them, and changing their habitat to give them a new experience.

## Training & Learning

Training and learning enrichment helps your animal use their **natural abilities**, learn new **skills**, and helps make **health care** easier.

## Food

Feeding enrichment makes mealtime **fun** by using food **puzzles**, offering new food items to **taste**, and trying different feeding strategies.

## Habitat

Habitat enrichment can make your animal's home more **interesting** and might include giving your animal a place to **rest** and **find shelter** or providing new objects to **use**.

## Sensory

Sensory enrichment helps your animal explore with their sense of **sight**, **sound**, **smell**, and **touch** to create new and different experiences throughout the day.

## Your Turn

Select an enrichment item for your animal to **play** with, **learn** about, or **explore**. What enrichment item will your animal choose today?
